PERSONAL INFO

Results-driven React/Next.js Developer with expertise in building scalable web applications and delivering exceptional user experiences. Proficient in developing responsive interfaces using modern JavaScript, React.js, and Next.js frameworks. Successfully completed 6+ projects, demonstrating strong problem-solving abilities and attention to detail.

TECHNICAL SKILLS

Languages: JavaScript, Typescript, HTML/CSS

FrontEnd: React.JS, Next.JS

BackEnd: Node.JS

Libraries: ANTD, MUI, React-Hook-Form, Simple-React-Validator, Zod, Rematch, Redux-Toolkit, Zustand, Socket.IO, React-Query

Tools: Git, VSCode

Experience

ReactJs Frontend Developer

Jan 2022 – Dec 2022

Tops Technology.

Surat, Gujarat

- Demonstrated mastery in React.js, utilizing hooks, context API, and functional components to build dynamic and responsive user interfaces.
- Integrated third-party libraries and APIs seamlessly into React applications, ensuring robust and efficient data handling.
- Stayed up-to-date with the latest React.js trends and best practices, continuously improving development processes and application performance.

ReactJs Frontend Developer

Jan 2023 – Current

Artoon Solutions Pvt Ltd.

Surat, Gujarat

- Developed responsive React.js and Next.js applications using modern web technologies, implementing functional components and hooks to create dynamic user interfaces with optimal performance.
- Engineered server-side rendered (SSR) and static site generation (SSG) web applications using Next.js, enhancing application speed, SEO capabilities, and overall user experience.
- Leveraged Redux and Context API for efficient state management, significantly improving application scalability and user experience.
- Continuously researched and applied cutting-edge React.js and Next.js development practices, driving innovation and maintaining high-quality development standards.

EDUCATION

Swarnnim Startup & Innovation University

Surat, Gujarat

Bachelor of Computer Application (External)

Aug. 2022 – Current

PROJECTS

EasySell / *next-js, zustand, tailwind, ShadCN*

- **Authentication Flow and Role Management system:** Implemented authentication and role-based access control.
- **Product Listing and AI-powered Deployment:** Developed a product listing system and deployed products on a platform similar to Amazon using AI.
- **Product Statistics:** Enabled viewing product statistics such as trending products and user interactions after utilizing AI features.

Jainam / *next-js, zustand, tailwind*

- **Signup and Varification Module:** Handles user registration and verification processes.
- Analytics and event tracking with Mixpanel.
- Document verification through Hyperverge API.

- Link:- [JAINAM](#)

Diamond Connect / *react-js, redux-toolkit, simple-react-validator*

- **Baseball Scheduler:** Developed event scheduling and score management.
- **Signup Flow:** Designed and implemented a multi-page signup process.
- **Code Optimization:** Replaced class components with functional components.
- **Data Visualization:** Integrated charts, resolved bugs, and improved code quality.
- Link :- [DIMOND-CONNECT](#)

Sundance / *react-js, redux, full-calendar*

- **Ticket & Passes:** Added a module for managing tickets and passes for movies.
- **Movie List:** Created a list of rented movies.
- **Sponsor Module:** Developed a module for managing sponsors, including listing and other functionalities.
- Link: [SUNDANCE](#)

IMS / *react-js, rematch, antd*

- **Internal System Management:** Developed a project for allocating resources like PCs, mice, and inventory.
- **UI and Form Libraries:** Built the project from scratch, utilizing various libraries.
- **Resource Management:** Implemented tracking for inventory levels and resource allocation.
- **State Management:** Utilized Rematch for efficient state management.
- Link :- [IMS](#)

Ampliteach / *mui, full-calendar, react-hook-form, react-redux, redux*

- **Online Teaching Platform:** Developed a platform for musical instrument classes and courses.
- **Lesson Scheduler:** Used FullCalendar library to manage lesson schedules.
- **Role Management:** Implemented access control and user permissions.
- **Customizable Widget:** Created an embeddable widget and common signup form for easy integration into other projects.
- Link :- [AMPLITEACH](#)

Superworks / *react-js, zustand, tailwind*

- **Attendance Module:** Employees can view their attendance records and request modifications.
- **Visitor Module:** Stores data of external visitors to the company.
- **Plan Selection Module:** Currently working on this module, allowing companies to choose and pay for only the modules they need, optimizing costs.
